

# DAYANIDHI K

## Software Developer | Full Stack Web Developer

Bangalore, Karnataka | 8867097625 | [nithidaya09@gmail.com](mailto:nithidaya09@gmail.com) | [linkedin.com/in/dayanidhi-k](https://linkedin.com/in/dayanidhi-k)  
[github.com/Daya25-daya](https://github.com/Daya25-daya)

### Professional Summary

Motivated Full Stack Developer and B.E. Information Science graduate with hands-on experience building web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, and MySQL. Experienced in developing responsive user interfaces, RESTful APIs, JWT-based authentication, database integration, and real-time web applications. Completed a 90-day Web Development Internship at Edutainer with practical exposure to application development. Strong foundation in Java, OOP, problem-solving, and modern web development.

### Education

- **Bachelor of Engineering (B.E.)** in Information Science

At Mysore College of Engineering and Management, Mysore      YOP: 2026

### Skills

#### Technical Skills:

- **Frontend:** HTML, CSS3, JavaScript, React.js
- **Backend:** JAVA (Core Java, Advanced Java), Node.js, Express.js
- **Database:** MySQL, MongoDB
- **APIs & Security:** REST APIs, JWT Authentication
- **Concepts:** OOP, Responsive Web Design
- **Tools:** Git, GitHub, VS Code, Postman

### Projects

#### Small Business Invoice & Billing System

React.js | Node.js | Express.js | MongoDB | JWT

- Developed a full-stack invoice and billing application to help small businesses manage invoices, payment records, and customer information.
- Built responsive frontend interfaces using React.js for an improved user experience.
- Developed RESTful APIs using Node.js and Express.js for frontend-backend communication.
- Implemented JWT-based authentication for secure user access.
- Integrated MongoDB for storing and managing application data.
- Gained practical experience in full-stack development, API integration, authentication, and database management.

## **Real-Time Chat Application**

React.js | Node.js | Express.js | MongoDB | Socket.IO | JWT Authentication

- Developed a full-stack real-time chat application supporting instant communication between users.
- Integrated Socket.IO for real-time message synchronization.
- Implemented JWT authentication and RESTful APIs for secure application access.
- Integrated MongoDB for database management and persistent application data.
- Built a responsive React.js frontend with dynamic chat rendering and session management.

## **Auto Diagnosis of Parkinson's Disease Using Deep Learning**

Python | Deep Learning | Machine Learning

- Developed an AI-based disease prediction system using deep learning algorithms and medical datasets.
- Performed data preprocessing, model training, and performance evaluation.
- Applied machine learning concepts including neural networks to healthcare-related data.
- Gained practical exposure to machine learning, deep learning, and healthcare analytics.

## **INTERNSHIP**

### **Web Development Intern – Edutainer**

#### **Duration: 90 Days**

- Completed a 90-day Web Development Internship with practical exposure to real-world application development.
- Strengthened web development, problem-solving, debugging, and application development skills.
- Applied web development concepts through practical learning and project-based activities.

## **Certifications & Internship**

- Full Stack Web Development — Tap Academy
- Python Web Development Workshop — Minds Coding Academy

## **ADDITIONAL STRENGTHS**

- Strong problem-solving and logical thinking
- Good communication and teamwork
- Time management and adaptability
- Quick learner with a positive attitude
